GUARANTEE

53 years of Satisfactory Service

We guarantee all of our plants to be exactly as described in this Catalog. Fresh pulled day order is shipped and packed to carry to your home in good condition; claims to the contrary must be made immediately upon receipt of plants. You will receive full count, no runts, no diseased plants. We grow our plants from the very best seed obtainable. We use seed from Asgrow, Burpee, Ferry-Morse, and Francis C. Stokes.

We send you only the highest quality plants and gladly stand back of them. After the plants are delivered in good condition, the future progress, thereof is beyond our control and further results cannot be guaranteed. Weather, soil and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

P. D. FULWOOD COMPANY

We Appreciate Your Order—It Will Receive Prompt Attention
Planting and growing instructions sent free with each order.

Unfavorable weather conditions could cause price changes without notice.

READ WHY THOUSANDS OF CUSTOMERS PREFER FULWOOD'S FIELD GROWN VEGETABLE PLANTS

For 53 Years we have been growing the very finest, field-grown vegetable plants and shipping to all parts of the United States.

You will find us well rated in the following reference books. Dun and Bradstreet, Inc.; The Packer Red Book; The Produce Reporter Blue Book. Our local bank—The Bank of Tifton.

We use the very best seed from such well known firms as W. Atlee-Burpee Seed Company, Ferry-Morse Seed Company and Asgrow Seed Company.

We use hybrid seed wherever possible. Vegetables from hybrid seed grow faster, produce more and better flavored vegetables than other varieties and over a longer period. Hybrid seed cost more—some as much as \$60.00 an ounce. Therefore, we have to charge more for these hybrid plants. You will find these plants are worth more.

Our plants are grown in the open field and on sterilized soil. They are weather hardened, sturdy plants that grow and produce better than hot-house or home grown plants.

**Use our convenient order
blank envelope enclosed.**

Pyramid Garden Bed with 50 All Red Strawberry Plants \$11.95 Postpaid

Practical and good-looking Pyramid Garden Beds are the answer. You can enjoy a large yield of Strawberries in one-third the space required by conventional garden methods. They keep the Strawberry Plants elevated pyramid fashion for quicker and bigger harvests. Easy to pick from; simple to care for. The bottom ring is 6 feet in diameter with three planting terraces.

FULWOOD'S CABBAGE PLANTS

FROST PROOF

Certified by
State Department
of Entomology

READY
SEPT. 1ST TO
JUNE 30TH

RED ACRE: 75 to 80 days. The earliest developing Red Cabbage. Even in its earliest stages takes on a solidity that is remarkable. Round head, very solid, splendid color. Diameter 6 to 7 inches.

SAVOY, CHIEFTAIN: 88 days, 5 lb. head. Crinkly leaf. Leaves are broad and rounded. Dark olive green in color. Medium large drumhead type, rounded on top, flat at base. Firm. Stands a long time without bursting.

EARLY COPENHAGEN: 66 days, 3 lb. head. Most widely used shipper where earliness is essential. Uniformly round and firm with clean white interiors. Gray-green leaves.

GOLDEN ACRE: 64 days, 3 lb. head. Uniformly round, clear white interiors.

FERRY'S ROUND DUTCH: 71 days, 5 lb. head. Shows considerable tolerance to mildew injury and cold weather. Almost ball shaped, firm high quality. Slow to develop seeders.

CHARLESTON WAKEFIELD: (Y. R.) 71 days, 4 lb. head. Sharp head variety desirable for home garden.

RESISTANT DETROIT: (Y. R.) 68 days, 3½ lb. head. Yellows Resistant strain of the Golden Acre. Slightly later and larger.

MARION MARKET: (Y. R.) 72 days, 4 lb. head. Similar to Copenhagen Market, but larger and later maturing plant. Heads round and firm.

GREENBACK: (Y. R.) 74 days, 5½ lb. head. A new cabbage in the Round Dutch class. Slow to produce seed stalks. Especially recommended in market and shipping for areas infected by Yellows.

RESISTANT GLORY: (Y. R.) 77 days, 6½ lb. head. Heads round and firm.

GLOBE: (Y. R.) 80 days, 6½ lb. head. A Yellows resistant strain of the Glory of Enkhuizen type.

COLLARD PLANTS: Vates — Delicious boiling greens. You gather the lower leaves and boil them. Plants continue to grow until heavy freeze.

PRICES: Same as Cabbage Plants—See below.

FULWOOD'S ONION PLANTS

GENUINE FROST PROOF

Ready November 1st to June 30th

These are frost-proof and can stand temperatures as low as 20 degrees. Will produce 4 to 6 weeks earlier than onions grown from seed or onion sets.

CRYSTAL WHITE WAX

Very early flat onion. Flesh white, sweet and mild.

YELLOW SWEET SPANISH (UTAH STRAIN)

Bulbs very large, globular, deep amber-orange; flesh white, firm and mild.

YELLOW BERMUDA (EXCEL 986)

Bulbs rather small, flat, light yellow; mild, white flesh.

WHITE SWEET SPANISH (UTAH STRAIN)

Very large,
globular,
glistening
white bulbs.

EARLY RED SALAD ONION

Adapted to
all sections.

Very productive
and fair storage variety. Bulbs deep flat
shape, skin color deep purplish-red. Flesh is
white tinged with pink, and rather pungent.
Makes a very colorful salad or slaw. Can be used in
sandwiches and cooking.

ORNAMENTAL HOT PEPPER PLANTS

Ready March 1st to June 30th.

Plants Sturdy, Well-Rooted, Colorful and Decorative

A fascinating, colorful, potted house plant. Compact plants with a profusion of cone-shaped fruit that is first green, later turning purple and then red. Can be used for seasoning. Set plants in pots for a beautiful, decorative house plant. (Use pot measuring 6 to 10 inches across). Will last for several years if watered and cared for properly.

Can be planted in the yard in flower bed after danger of cold weather—will make colorful border. Will have white blossoms, green, yellow, purple and bright red fruit all at the same time.

See Prices Below—Same as Cocktail Tomato Plants

Now YOU CAN GROW TINY COCKTAIL TOMATOES IN THE HOUSE IN FORTY FIVE DAYS.....

Ready March 1st. through June

FIELD GROWN WELL ROOTED HARDY PLANTS

SHIPPED READY FOR POTTING

A novel miniature tomato that can be raised as a colorful plant in the home in a flowerpot 6 to 9 inches, or in a window box. Dwarf and compact, growing to a height of 6 to 8 inches and only about 14 inches across. This is the earliest of all tomatoes and is loaded with clusters of bright red fruit that are nearly round and are $\frac{3}{4}$ to 1 inch across. Tomatoes have fine flavor and are ideal for garnishing, or in salads. Very colorful when potted and a pretty sight in flower garden, too. Can be put in the yard after danger of cold weather.

Planting and growing instructions with each order. Plant anytime.

Sensational **F₂ OF HYBRID CLIMBING TOMATO PLANTS**

**HEAVY BEARING TILL FROST! BEAUTIFUL!
DELICIOUS! EASY TO GROW! WELL ROOTED
OPEN FIELD GROWN PLANTS! EARLY TO BEAR!**

BIG JUICY TOMATOES

PLANTS READY TO SHIP IN MARCH, APRIL, MAY AND JUNE!

Amazing F₂ of Hybrids bear heavily right up to frost—Beautify fences, trellises with bushels of juicy, best-tasting tomatoes. Fragrant, colorful—You get guaranteed healthy, well rooted plants that will give you bushels of tomatoes and continue to bear fruit all summer long until frost. Plenty of big, delicious, firm, juicy tomatoes for your table month after month, with enough left over for relatives and friends. You haven't tasted good tomatoes until you eat home grown, vine ripened tomatoes.

TAKE LITTLE SPACE—NEEDS VERY LITTLE CARE!

These genuine F₂ of the Hybrid Climbing Tomatoes climb up fences and trellises—or staked, they make beautiful borders. No stooping, no bending to pick them. No midseason droop like ordinary tomato plants! You can grow delicious tomatoes on vines 10 to 15 feet tall.

PRICES: See Page 11 FOR CLIMBING TOMATO PLANT PRICES

Unfavorable weather conditions could cause price changes without notice.

Dear Sirs:

Thought that you might be interested in the growth of the 12 Climbing tomato plants which we ordered from you last spring. Wish to state that they grew to a height of almost twelve feet and the yield was over two hundred pounds. At least half of them weighed over a pound each. I would say that is fine. When our first frost came there was another twenty to thirty pounds on the vines.

Yours truly, T.L.D., Indianapolis, Ind.

Order now and advise when you want your plants shipped.

FULWOOD'S *Certified* TOMATO PLANTS

Not Frost Proof

Certified by the State Department of Entomology
Ready March 1st to June 30th

TOMATO VARIETIES:

VALIANT: 69 days. Adapted to short season areas and early market. Plant sparse and open; fruits bright scarlet; large globe shaped.

RUTGERS: 80 days. An excellent all-purpose variety. Partially resistant to fusarium wilt. Fruit globular, bright red, smooth, with thick walls and small seed cells.

WILT RESISTANT TOMATO VARIETY:

CAMPBELL'S NO. 146: (W.R.) 75 days. A standard (Rutgers) type vine, medium early large globular fruit (larger and deeper than Rutgers), fusarium wilt and mosaic resistant with some resistance to cracking. A very good tomato for the market trade and garden use, particularly in wilt infested soils.

NOT FROST PROOF

Certified by State Department of Entomology

Field Grown Plants—Ready March 1st to June 30th

F2 OF HYBRID STOKECROSS TOMATO PLANTS Grown from seed produced by Francis C. Stokes Company.

STOKESCROSS NO. 1

69 DAYS

Recommended for green-wrap, for vine ripened, and for processing. Fruit size, 6 ounces.

STOKESCROSS NO. 5

77 DAYS

For the fresh market or for the canner. Has a long harvest and will maintain its quality throughout the season. Fruit range 5 to 6 ounces.

FIREBALL: Earliest Tomato Known. 62 days. Vines small and open and can be set 1½ to 2 feet apart. Early blossoms set large clusters even in cool weather and fruit ripens quicker from pale green to bright red. They are good size smooth, globe shaped and are unusually firm. Flavor is mild—not acid or sour.

HOMESTEAD: (Wilt Resistant) 83 days. A uniform plant. Less spreading and dense growth. Very productive.

MANALUCIE: (Wilt Resistant) 90 days. Resistant to Fusarium Wilt and other leaf infections. Vines strong growing and give good cover from sun. Fruits rich scarlet red; 2¼ inches by 2¾ inches diameter and nicely rounded. Interior firm with few seeds and thick walls.

GLAMOUR: 77 days. Large crack-free tomatoes. Succeeds on stakes as well as on ground. Fruit big and solid, slightly flattened globe shape. Rich red throughout.

PINKSHIPPER: (Wilt Resistant) 80 days. Very Popular with market growers. Highly resistant to fusarium wilt. Produces big picks of uniform, good sized, globe shaped fruit, firm, attractive in appearance and with smooth, pink color. Fine quality.

Not Frost-Proof

HUNGARIAN WAX: A Hot Pepper. Yellow then changes to orange, then to bright red, use when any color.

LONG RED CAYENNE: (Hot) 68 days. A Leading variety for pickling, canning and drying. 5 inches long, 1/2 inch through, tapered: deep green becoming bright red. Very pungent.

Use our convenient order-blank
envelope enclosed.

NATIONWIDE AIR FREIGHT SERVICE

ALL PLANTS ARE SHIPPED THE SAME DAY THEY ARE PULLED

Air Freight offers field fresh delivery for shipments of 5000 plants or more to any destination airport having regularly scheduled passenger flights. The charge for air freight is a combination of the motor freight rate from our Tifton plant to the Atlanta Airport, plus the low airport-to-airport air freight rate. You may pick your shipment up at destination. Delta air Lines will route your shipment from Atlanta and the delivering carrier will notify you on arrival. Next morning is the general rule for air freight, with second morning arrival at hard to get to—out of the way places.

All plants weigh about 20 lbs. per thousand except onion plants which weigh approximately 6 lbs. per thousand. Air freight charges are based on the 100 lb. rate which lowers transportation costs. You will only be charged for the actual weight of the plants. All air shipments are hand graded plants which insures top quality, long life, merchandise.

The cities listed below are some of the points served by direct Air Freight service. Approximate Cost.

CITIES	Per 100 Lbs. (At least 5,000 plants)
Akron, Ohio	9.71
Albany, New York	13.11

If for any reason your order is not shipped as scheduled we will wire you.

If your order is not received as scheduled call Delta Airline Freight Office, Atlanta, Georgia. Telephone Popular 6-5315.

SHIPPING INFORMATION

All Plants Are Packed And Shipped The Same Day They Are Picked

Small orders for plants are shipped by parcel post. Be sure to note that all parcel post prices quoted are postage prepaid. Do not order plants C.O.D as this will cost you more money and shipments are sometimes delayed.

We ship by Railway Express and Truck Loads. We load hundreds of trucks coming to our fields every season.

Orders of 5,000 plants or more can be shipped by Air Freight. You can order plants one day and get them the next day at your nearest major airport. It will cost approximately 50% more for air transportation than railway express.

For packing and shipping our plants we use special made boxes for Parcel Post, Express and Air shipments. We use the best packing methods which have been tested and recommended by the U. S. Department of Agriculture.

Our farms join fences with the Georgia Coastal Plain Experiment Station and the Georgia Department of Entomology. We have their constant advice and supervision and inspection service.

If you mail your order well in advance — stating the date you want shipment made—it will help us to give you better service.

We guarantee the plants to reach you in fresh planting condition.

Do not order plants C. O. D. as this will cost you more money and shipments are sometimes delayed.

FULWOOD'S

PLANT AIDS

FOR BETTER GARDENING

ALL PURPOSE TOMATO AND GARDEN DUST SPRAY

In squeeze duster, 8 oz. size, postpaid \$1.29
One pound can (Enough to refill your squeeze duster twice), postpaid 1.50

Blossom-set

**Make TOMATOES Ripen
1 to 3 WEEKS EARLIER!**

You'll pick **RIPE** tomatoes. **WEEKS EARLIER** than your neighbor! **BIGGER** yields of **LARGER, MEATIER**, more **DELICIOUS** TOMATOES, **SEEDLESS** TOMATOES, too!

NO-SEED HORMONE

Easy To Use!

Just Spray!

STOPS BLOSSOM-DROP!

MAKES BLOSSOMS SET FRUIT!

Early tomato blossoms often drop off the plants without setting fruit if they are not pollinated properly, especially early in the season when nights are cool. **BLOSSOM-SET** keeps blossoms on the plants; starts fruit development immediately by chemical stimulation of the flowers. These flowers set fruit instead of dropping off; develop into ripe tomatoes **WEEKS EARLIER** than unsprayed flowers. The tomatoes are larger, meatier, firmer, and better tasting. **YOU'VE NEVER TASTED SUCH WONDERFUL TOMATOES**; with better shape and color and more on each plant. Many are **SEEDLESS** because fruit is set chemically, not by pollen.

Convenient, easy way to spray. Just push the button and — **WHOOSH** — as easy as that! 12 oz. ready-to-use can (season's supply for 100 plants) . . Postpaid only \$1.95.

PLANTABBS

Complete Plant Food — Easy to Use. Everything that grows in soil grows better with Plantabbs.

Plantabbs contain in concentrated form the same rich food and fertilizing elements used by professional plant and flower growers, landscape gardeners and truck farmers. These clean, odorless, "nuggets of nourishment" make everything that grows in soil healthier, bigger, more beautiful. Will not burn or damage even the tenderest plants.

Nothing to measure or spill. Every week or 10 days, just push a Plantabb into the soil 2 or 3 inches from stem of plant. Water or let rain dissolve tablet. If you prefer liquid feeding, use one Plantabb per quart of water.

PRICES: PLANTABBS, POSTPAID

200 Plantabb Tablets for \$1.00

1000 Plantabb Tablets for 3.75

Use Plantabbs For Beautiful Plants. For Beautiful Flowers. For More Vegetables — All thrive on Plantabbs. Proved through successful use for over 35 years. Thrilling results.

Terra-Lite®

VERMICULITE SOIL CONDITIONER USED MANY WAYS ALL YEAR 'ROUND

Perfect soil conditioner for vegetable plants, flowers, potting plants, lawns, trees and shrubbery. Mix Terra-Lite with soil around plants to lighten and aerate heavy soil, give body to sandy soil. Promotes healthy and faster root growth. Terra-Lite holds air, water, fertilizer at the roots, where it's needed. Reduces watering needs and provides better drainage, lets roots stretch and grow. Keeps down weeds and prevents soil crust. Since Terra-Lite is a sterile material, damping off is virtually eliminated.

4 Qt. Bag, weight $\frac{3}{4}$ lb., Postpaid, with enough fertilizer free to give your plants a quick start.

1—4 qt. bag, Postpaid \$1.25, with free fertilizer.

2—4 qt. bags, Postpaid \$2.25, with two packages of free fertilizer.

® Reg. Trademark
Zonolite Company

PLASTIC MULCH BLACK POLYETHYLENE PLASTIC FILM

The Modern Way To Mulch

Cultivating and weeding is eliminated. Protects plant leaves and fruits from soil, soil-borne diseases and insects. Conserves soil moisture. Soil temperatures can be raised about 10 degrees, resulting in more rapid growth, earlier maturity, and increased yields.

After your garden has been prepared and fertilizer worked into the soil, lay this black polyethylene plastic flat on the ground. Slits are made in the film at the location the plant is desired. The plant is set through the slit. Individual pieces of plastic film, already cut, measuring 12 inches square, can be used for each plant. Or, rolls of film 12 inches wide and any length can be put down between the rows in your garden. Weight the edges down with soil. Have the best garden ever. It is re-usable next year.

**PREVENTS WEED GROWTH • INCREASES YIELDS • CUTS LABOR COST
PROMOTES EARLIER MATURITY • CLEANER, BETTER QUALITY CROPS**

One dozen, ready cut mulches, 12 inches square, ready to go around each plant, Postpaid . . . 60¢ per dozen. In larger quantities, any length, 12 inches wide only, Postpaid . . . 3½¢ per foot.

AMAZING PLANT PROTECTOR *Parco* HOT HOUSES

For the Production of
Earlier and More Profitable Crops

**PRICES: Prepaid—
ORDER NOW !**

EARLY CROPS—by planting earlier and speeding plant growth.

STRONG & STURDY—heavy duty, treated, reinforced with wire.

LONG PROTECTION—12" diameter, 11" height gives long protection from frost, wind, hail, insects, etc.
